**OsteoProCare**<sup>TM</sup>  
Vanilla

**Product Name:** OsteoProCare, 32 fl. oz. (1 Litre)

**Item No:** AUS18

**Characteristics:** A liquid mineral supplement formulated to provide an easily absorbed and good tasting source of calcium, along with magnesium, Vitamin D, and other supporting nutrients in proper ratios to calcium.

OsteoProCare promotes and supports:

- Strong bones and may assist in the prevention and treatment of osteoporosis.
- Healthy joints.
- Maintenance of healthy muscles.

**Calcium:**

- Helps to strengthen bone and tissue in children and older adults.
- Supports bone density and may assist in the prevention or treatment of osteoporosis.

**Vitamin D:**

- Enhances the efficacy of calcium absorption, so it is important that OsteoProCare® contains vitamin D to meet this most important requirement.

**Glucosamine:**

- An amino acid derivative of glucose that appears to play an important role in the formation of connective tissue.
- Helps to build, maintain and repair the cartilage, tendons, ligaments and synovial fluid in the joints.

**Chondroitin:**

- A glycosaminoglycan that appears to play an important role in the formation of joint cartilage.

**Magnesium:**

- Important for normal bone structure.
- Helps to maintain healthy bones and muscles.
- Supports bone strength and bone building and remodeling, and decreases bone resorption.
- Is an important mineral in maintaining the healthy of the blood vessels, heart and entire cardiovascular system.

**Minerals:**

- Copper is important for the strength and structure of the bones and deficiency is associated with poor integrity of collagen.
- Zinc, copper and boron are required for the synthesis of collagen and maintenance of normal cartilage.
- Selenium acts as an antioxidant in the body.
- Zinc, chromium, selenium and iron are important in maintaining a healthy immune system.

**Colour:** Color starts with light yellow. Discoloration may occur after opening. This does not alter its effectiveness when recommended storage and shelf life are observed.

**Flavour/Taste:** Vanilla

**Texture:** Viscose liquid

**Recommended Daily Intake:** Drink 2 Tbsp. (30 mL) daily, preferably 1 Tbsp. in the morning and 1 Tbsp. in the evening with food. Note: During initial use, if experiencing intestinal cleansing or a loose stool, reduce consumption by half and slowly increase to recommended amount.

**Servings per container:** 32

**Storage/Shelf life:**

- **Unopened** – Shelf stable for 18 months when stored at room temperature, sheltered from light and moisture, and product is kept in its original packaging.
- **Opened** – For the best benefits use within 40 days after opening. Refrigerate after opening; ensure to shake vigorously each time before use.

**Ingredients:** Calcium (Carbonate), Magnesium (Carbonate), Magnesium (Orotate), Glucosamine Hydrochloride, Chondroitin Sulfate (Shark), Cholecalciferol (Vitamin D3), Manganese (Gluconate), Iron (Ferrous Gluconate dihydrate), Zinc (Gluconate), Copper (Gluconate), Chromium (Chloride), Molybdenum (Yeast – High Molybdenum), Boron (as Borax), Potassium (as Potassium Iodide), Iodine (as Potassium Iodide), Selenium (as sodium selenite).

**General:** This product is listed on the Australian Register of Therapeutic Goods and is therefore manufactured to the high Australian standards of Good Manufacturing Practices for Medicinal products.

Vitamin supplements should not replace a balanced diet. This product contains selenium, which is toxic in high doses. A daily dose of 100 mcg of selenium from dietary supplements should not be exceeded. Products containing selenium are not suitable for use by children under the age of 15 years. Contains Hydroxybenzoates, Potassium Sorbate and Sodium Benzoate. This product includes ingredients derived from seafood.

Keep out of reach of children. Satisfaction guaranteed.

Ingredients	Each 15 mL contains
Calcium (as Calcium Carbonate)	600.0 mg
Magnesium (as Magnesium Carbonate)	298.5 mg
Magnesium (as Magnesium Orotate)	3.0 mg
Zinc (as Zinc Gluconate)	2.5 mg
Copper (as Copper Gluconate)	500.0 mcg
Molybdenum (as Yeast - High Molybdenum)	30.0 mcg
Chromium (as Chromic Chloride)	100.0 mcg
Selenium (as sodium selenite)	13.0 mcg
Manganese (as Manganese Gluconate)	2.55 mg
Boron (as Borax)	25.5 mcg
Iron (as ferrous gluconate dihydrate)	2.55 mg
Iodine (as Potassium iodide)	75 mcg
Potassium (as Potassium Iodide)	23.1 mg
Glucosamine hydrochloride	103.5 mg
Chondroitin sulfate - shark	64.7 mg
Cholecalciferol (Vitamin D3) (100IU)	2.5 mcg
