[Where is the hemp grown?]

In Colorado, where they grow the cream of the crop organic, pesticide free. Only natural fertilizers such as fish teas, moss and beneficial microorganisms are used to improve the quality of soil after a harvest. This means that every year an all natural, Colorado crop will give back nutrients to the soil and create an unsurpassed Hemp crop where the CBD content in each plant will be higher than anywhere else in the world.

[Does the CBD need to be refrigerated after opening?]

NO. For the best benefits it should be properly stored and used within 45 days after opening.

[Is there a shelf life/expiration date?]

2 yrs. Unopened, and properly stored away from heat and light, in a cool dry place. Do not use if seal is broken.
